**From the past to...  
The present, to...the future!!!**

The 3D is the third offspring in the Christoffel® series. Similarly to its brothers: I-II-III-IV and the XL this transport box provides protection for works of art while being transported for exhibition, restoration or to new premises. A special feature in relation to the other boxes is that three-dimensional works of art and sculptures can be transported in the Christoffel® 3D. The Christoffel® 3D completely meets the stringent requirements for the transportation of works of art.

**Transport**

Christoffel® 3D protects works of art and sculptures against climatological and mechanical influences. The dimensions of the box take account of the standard transportation size of 1200 mm. The FB20 locking system protects against dust and splash water. It provides the best protection for all your transported objects and ensures rapid assembly and disassembly on arrival and departure, without tools. To prevent damage the locking system does not contain any protruding parts. The FB20 locking system can be supplied with locking pins that secure the locks.

**Freedom in the choice of pressure points and fastening points**

Covering the object with the 3D box takes place in layers. Firstly, the base panel is placed. Per layer four walls are placed with a fastening system on the interior. This system consists of height and length adjustable arms fitted with universal joints. This gives a great degree of freedom in the selection of pressure points and fastening points. More arms can be fitted depending on the weight of the object. The arms are covered with a foam protection layer. To avoid pressure points on the object special fixation parts made of foam have been designed. The box is ready for transportation when the lid has been fitted.

Dimensions			
Description	Length (mm)	Width (mm)	Height (mm)
• standard	1200	1000	1580
Interior available space standard	900	700	1395
• with extra "wall set" to increase height to	1200	1000	2270
Interior available extra space	900	700	2085
• collapsed (see Fig. 1)	1200	1000	914
Other sizes on request			

Saint Christoffel (Christopher) is the patron saint of all road users, carpenters, painters, pilgrims, fruit traders, bookbinders, treasure hunters, arquebus shooters, hat makers, gardeners and children and a guardian against infectious diseases, unexpected death, the plague, drought, storms, hail, floods, fire, eye diseases, and toothache and a guardian of the inhabitants of the city of Roermond, where a large statue of him stands on top of the cathedral with Jesus at his shoulder. This city is the home of the only Saint Christopher Cathedral in the world.
